1.1 OVERVIEW

This manual is designed to provide basic information about the administration of the Steward Health Choice Arizona, AHCCCS and RBHA programs. Details within this manual are intended to furnish providers and their staff with information, covered services, and claim/encounter submission requirements. This provider manual is an extension of the Steward Health Choice Arizona Subcontractor Agreement, executed by the participating provider. The participating provider agrees to abide by all terms and conditions set forth in this manual.

1.2 STEWARD HEALTH CHOICE ARIZONA NETWORK MANAGEMENT

Steward Health Choice Arizona is responsible for coordinating covered services that are provided to members through a comprehensive provider network of Steward Health Choice Arizona contracted physicians and facilities. The network consists of but is not limited to: primary care physicians, nurse practitioners, specialists, dentists, medical facilities, ancillary service providers, pharmacy, behavioral health services and non-emergent medical transportation.

Steward Health Choice Arizona's network has been strategically developed to include contracted health care providers, facilitating our ability to meet or exceed the AHCCCS minimum requirements ensuring member access to quality care and services through appointment availability and network adequacy by geographic service area. Our robust network includes a

diverse selection of qualified primary care providers, specialists, hospitals, and ancillary providers who agree to accept and follow Steward Health Choice Arizona managed care policies and procedures. Contracted health care providers are required to coordinate care within the Steward Health Choice Arizona provider network for all members. This standard of practice enables us to monitor, evaluate and maintain our well-established network.

In the event a referral(s) is needed outside of the contracted network, prior authorization is required. Questions concerning the Steward Health Choice Arizona network should be directed to the attention of your Provider Performance Representative.

Our Network Services Department is staffed with qualified, experienced professionals who are dedicated to developing partnerships with providers, and committed to providing personalized assistance such as staff orientation, education and training on claims or billing/coding issues, AHCCCS standards, prior authorization requirements, and compliance matters. Our goal is to collaborate on innovative approaches to maximize effectiveness and efficiency, and identify resources to help reduce administrative burden.

Provider Performance Representatives are assigned by territory and/or service type. The Provider Performance Representatives are available to assist you with your questions or requests and respond within 3 business days. Please do not hesitate to contact your Provider Performance Representative whenever necessary. For a list of the Provider Performance Representatives and other useful department numbers, see Exhibit 1.1, Network Services Contact Information.
